DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-4, 7, 10-24, 27-33, 36-39 are allowed.

Claims 1, 3-4, 7, 10-24, 27-33, 36-39 are allowable over the prior art of record for at least the reason that even though the prior art discloses polarizer devices comprising at least one layer of two types of alternating nano-structures, said nano-structures comprising a dielectric material and a metallic material adjacent to each other, the prior art fails to teach or reasonably suggest a radiation polarizer and a method of providing such polarizer, wherein the metallic has a short surface and a long surface and the dielectric extends only partially along the long surface of the metallic, as set forth by the claimed combination.
